XU Binhang

Objective: Software Testing Engineer (Intern / Campus Hire)

Male | Born Aug 2006 | Suzhou Centennial College · Software Technology | +86 159 9583 7303 | 2557817090@qq.com

EDUCATION

Suzhou Centennial College — Associate Degree, Software Technology *Sep 2024 – Jun 2027 (Expected)*

- **Core Courses:** Software Testing, Java Programming, Database Principles & Applications (MySQL), Web Front-end Development, Computer Networks, Introduction to Software Engineering

SKILLS & CERTIFICATIONS

- **Certification:** National Computer Rank Examination (NCRE) Level 1 — MS Office
- **Testing Skills:** Familiar with software testing fundamentals and test case design methods (equivalence partitioning, boundary value analysis, scenario method); knowledgeable in functional and regression testing execution and defect logging practices
- **Technical Skills:** Solid foundation in Java and Python programming; basic MySQL operations and SQL query writing
- **Office Tools:** Proficient in Word, Excel and PowerPoint; able to organize test data and defect statistics with Excel
- **Languages:** Mandarin (native), English (basic reading of technical documentation)

PROJECT EXPERIENCE

Library Management System — Functional Testing Training (Course Project) *Mar 2025 – Jun 2025*

- Designed 80+ test cases for core modules (book borrowing, returning, and search) using equivalence partitioning and boundary value analysis
- Executed functional and regression testing; recorded and tracked 20+ defects in defect tracking sheets, followed up with developers on fixes and verified the results
- Produced the final test report with conclusive quality assessment; achieved an excellent grade in the course

Web Front-end Course Project — Personal Blog Page Development *Oct 2024 – Dec 2024*

- Built a personal blog page with HTML, CSS and JavaScript, implementing article list rendering and form validation
- Conducted cross-browser compatibility self-testing and fixed styling issues, building an early awareness of the develop–test–fix quality cycle

SELF-ASSESSMENT

- Software Technology major with a clear career plan in software testing; systematically learning test case design and defect management
- Detail-oriented, patient and responsible, with strong documentation and communication skills suited to the rigor of testing roles
- Fast learner of new tools; eager to gain hands-on testing experience in real projects and grow together with the team
